

Supplementary Table Guide

Supplementary Table 1

Clinical characteristics of 12 CRC patients in this study

Supplementary Table 2

Somatic mutations detected by whole exome sequencing in CRC tumours

Supplementary Table 3

Sequencing statistics of single T cells in CRC

Supplementary Table 4

TCR typing of single T cells in CRC

Supplementary Table 5

List of signature genes expressed in CRC T cell clusters

Supplementary Table 6

CD8+ TCR clones dissected by tissues and clusters

Supplementary Table 7

CD4+ TCR clones dissected by tissues and clusters

Supplementary Table 8

Differentially expressed genes in iTreg cells (Treg lined to Th cells) and intracluster hi-expansion Treg cells in CRC tumours

Supplementary Table 9

Differentially expressed genes in CXCL13+BHLHE40+ Th1-like cells and CD4+ Tem cells in CRC tumours

Supplementary Table 10

List of tumour CXCL13+BHLHE40+ Th1-like cells related genes

Supplementary Table 11

CD8+ exhaustion-related genes in CRC tumours and compared with those genes from HCC and NSCLC
